13. ORDERING OFFICER:						
NAME/TITLE:			SIGNATURE:	DATE:		

The Site is comprised of several drums that have been dumped on the side of the road. EPA has worked with the manufacturer of some of the chemicals and they are arranging for the removal and disposal of most of the drums. There are two additional drums that will be addressed by this action. If the manufacturer does not complete the removal and disposal of their drums, it may be necessary to address them with this action.

The drums are located at 1765 W. Northwest Highway service road, on the north side. The service road runs in both directions and U turns at the railroad, under the NW Hwy overpass. The service road is accessible from the Luna Road intersection with NW Hwy. The drums are on the shoulder of the road at a gravel driveway into private property with no apparent association with the ownership of the drums. The drums are upright on firm ground only a few feet from the road.
